Shriners To Finance Children's Ward In New Warner Hospital; Speaker Urges Conservation

The pediatric or children's ward of the new addition to be built to the Annie M. Warner Hospital within the next five years will be financed by Adams County Shriners through voluntary individual contributions that will be made annually during the next five years.

This action highlighted the annual dinner-meeting of the Adams County Shrine Club as the Hotel Gettysburg Tuesday evening which was attended by Chauncey Reichard, Harrisburg, potentate of Zembo Temple, and his official party of 12 comprising all but one member of the divan, two past potentates and other officials of Zembo Temple.

Hon. Clifford Davis, Democratic member of Congress from Memphis, Tennessee, was the speaker. He was introduced by Tom Kemmerer, minority chief official of the lower house of Congress.

Dr. Ralph D. Wickerham, president of the local club, presided as toastmaster.

Scharf Heads Club

Henry M. Scharf, manager of the Hotel Gettysburg, was elected president of the county Shrine club for next year. Harry Geiselman, Biglerville, was elected first vice president; Orville Orner, Gettysburg, second vice president; Willis L. Weikert, Gettysburg, treasurer, and Dr. Frederick Tilberg was re-elected secretary.

Five new directors elected were C. Samuel Daley, Atty. Eugene Hartman, John Hewitt, Dr. Ralph D. Wickerham, all of Gettysburg, and John Hawbecker, Biglerville.

Past presidents honored at the meeting were Radford H. Lippy, Kenneth P. Hull, Henry T. Bream, Charles Bender and Sydney J. Poppey.

Congressman Davis, in a stirring address that was enthusiastically received, made a plea for "greater appreciation of the strength, the greatness and the richness of America."

Urges Tolerance

He urged unity and a spirit of tolerance among the people and impressed upon his audience "the inspirational force and spiritual strength to be gained through following Masonic teachings and active participation in the various Masonic orders."

"Though we are the greatest and the richest nation on the face of the globe," the congressman said, "we must question how much longer we can give of our wealth and of our resources to the rest of the world."

"We have spent billions in restoring buildings, highways, bridges and bousing all over the world. We have gone even further and have spent untold sums in creating new factories, restoring land and teaching our technique to other countries."

"We must ask ourselves how much longer we can do this for we have pressing domestic problems occasioned by our amazing increase in population of over 3,000,000 people annually."

"Husband Our Resources"

"We are coming to the time when we must husband our resources and turn our attentions to conservation, for conservation will shortly be our most urgent problem."

In this connection the speaker said rivers and waterways must be harnessed and flood control established in order to conserve the water supply necessary for agriculture and industry, both of which must expand to serve a rapidly increasing population.

"Unless we adopt scientific methods..."

HAVE BROCHURE FOR PROSPECTS IN GETTYSBURG

A brochure representing an industrial survey of Gettysburg completed by Newton Griffiths, of the State Department of Commerce, was presented to the board of directors of the Gettysburg Chamber of Commerce at their meeting Monday evening at the Plaza building.

An accompanying letter signed by William W. Behrens, secretary of the state department, said "When you have an industrial prospect that requires information on the Gettysburg area... this department... will prepare a brochure similar to the one sent you, with a letter stating that the material has been sent at the request of Gettysburg. We will urge the company to visit the community in order that we, in cooperation with the representatives of the area and with representatives of the utility companies, may give the company an on the spot view of the area."

Behrens also expressed his appreciation to "the citizens of Gettysburg for the cooperation given our representative."

In Heavy Population

The brochure is complete with the exception of the section on labor statistics and wage rates which is to be furnished, according to Behrens, by the state Bureau of Employment Security.

The brochure points out that within a 500-mile radius of Gettysburg are located 35 per cent of the population of the U. S., 71 per cent of the manufacturing employment, 62 per cent of the non-agricultural employment, 57 per cent of the total income of the nation and 54 per cent of the retail sales of the U. S.

The brochure describes the Gettysburg area, its battlefield, and climate and highway network. It notes that, industrially, "Gettysburg is noted for electric coils, used in motors, textiles and textile products, furniture and rubber heels and shoes."

Retail Sales \$18,180,000

According to the brochure Gettysburg is the shopping center for 37,151 people. There are 168 retail establishments in Gettysburg which have annual retail sales of \$18,180,000. There are 3,432 phones in the town, 2,290 in residential homes.

HANOVERIAN IS HURT IN CRASH

Edward Fuhrman, 44, 54 South St., Hanover, received only minor injuries early this morning when his car struck a utility pole two miles west of McSherrytown on the Gettysburg-Hanover Rd. and the top of his car, according to police, was "rolled back like a tin can."

State police from the local substation, called to the scene at 3:20 o'clock this morning, said Fuhrman suffered lacerations of the face and right knee and was removed to the Hanover Hospital by the Hanover Fire Department ambulance.

The police said Fuhrman was driving east, toward Hanover, when he told police, another car forced him off the road at a slight curve, and his vehicle struck the utility pole.

The impact snapped the pole off at the top, "rolled the top of the car back like a tin can" and wrapped one door of the car around the pole, according to the police report.

COURT UPHOLDS SHEELY DECREE

Judge Chester H. Rhodes has handed down an opinion in Superior Court at Harrisburg upholding the decree granted by Judge W. C. Sheely divorcing Philip B. Sharpe, Liberty Twp., from Ethel Marie Sharpe, of Maine.

Mrs. Sharpe had appealed the divorce to Superior Court after the county jurist had granted Sharpe the divorce on grounds of cruel and barbarous treatment, desertion and indignities. She denied all three grounds.

Judge Rhodes held that the divorce was properly granted on all three grounds. He related in his opinion received here Tuesday testimony concerning an occasion when Mrs. Sharpe moved the furnishings including the stove out of the Sharpe house, and then brought Mr. Sharpe to the empty and unheated house from the hospital where he had been recovering from pneumonia. She then drove off, leaving Sharpe alone in a snow storm in the house without food or heat. A mailman brought provisions later when Sharpe apprised him of his plight.

The Superior Court Judge held: "We agree that this is cruel and barbarous treatment. We think the defendant obviously intended to endanger the health and life of the plaintiff and wilfully and maliciously sought to jeopardize his recovery."

FAIRFIELD'S WATER SUPPLY IS TURNED ON

Fairfield's long dreamed of municipal water system is going into operation and about half of the 140 prospective water users there already have town water.

The task of turning on the water for each residence and business place began last Friday and may not be finished until next week. LeRoy Sheads, caretaker for the Fairfield Municipal Authority, is in charge of the work.

The only difficulty encountered so far is "too much pressure." Some users will have to install pressure regulators in their homes, he said.

20 Fire Hydrants

The town now has a town water supply in case of fire with 20 hydrants placed throughout the borough. It was the Fairfield Shoe Company fire in August, 1953, that gave the final impetus to long-discussed plans for a town water system.

The Fairfield Municipal Authority was organized and bonds sold in the county to pay for the \$165,000 system. Work started about May 1 of last year.

Maple Spring, two miles northwest of the town, is the source of supply. It has filled to overflowing a 700,000 gallon open reservoir between the town and the spring. Eight- and six-inch mains have been used in the distribution system.

Mrs. Ross and "Ma" Ferguson of Texas, the only two women ever to become governors of states, were elected to office at the same time. President Elmer M. Gruver, East Berlin, presided at the meeting with 18 members present.

The decision to employ a secretary followed the resignation of Mrs. Henrietta Blocher who served as county captain for the last two years. The board commended Mrs. Blocher for her services and after a field representative from the state Cancer society explained a plan being followed by societies in other small counties, the board voted to employ an executive secretary. She will promote the work of the cancer society in the county, handle the educational program of the county society and will enlist and direct volunteer help.

The directors also voted to underwrite the expenses of a Warner Hospital nurse for two weeks of training in cancer nursing in Pittsburgh.

Mrs. Verna Myers, finance committee chairman, reported on several projects that have received the committee's approval including the providing of some laboratory equipment at the hospital to be used in diagnosis of bone cancers.

YOUNG FARMERS MEET TUESDAY

Social security and dairy management were the topics for the first in a dozen educational meetings scheduled by the Gettysburg Young Farmers Association for the next three months.

At the first meeting Tuesday evening at the Gettysburg High School, Charles Coffelt and Elmer Schriver led the discussion on social security. This is the first year that farmers have been included in the program. They will have to keep books in order to send in their three per cent tax on net income between \$400 and \$4,200 at the beginning of next year when they file their income taxes.

Schriver spoke on dairy management and urged members to cull cows from their herds whenever the animals drop below 6,000 to 7,000 pounds of milk and 300 pounds of fat in their production. "Otherwise you are just boarding an animal instead of making a profit off it," Schriver said.

Another meeting on dairy herd management is planned for next week.

REC BOARD AND CLUB DIFFER ON LEASE OF PARK

After rejecting terms set by the Gettysburg Recreation Board for use of a section of the "Rec" Park for the annual horse show, members of the Gettysburg Riding Club Tuesday evening at a regular meeting decided to ask for a joint meeting of their committee and a "Rec" committee in an effort to work out an agreement.

Riding Club officers said that the Rec Board or its committee had turned down terms offered by the Riding Club and submitted a list of conditions to be agreed to by the Riding Club before space for the horse show could be made available. It was that list that was turned down by the horsemen Tuesday evening.

President LeRoy H. Winebrenner said the riding club had asked to be allowed to use a section of the recreation park on the same basis as other groups have been using it for softball, baseball, model airplane meets, junior league baseball and other special purposes.

Offered 10-Year Lease

In the Recreation Board's response, the Riding Club was offered a 10-year lease of land for the horse show in return for 10 per cent of horse show profits or not less than \$200 a year. Another condition is that the Riding Club be required to hold a horse show each year.

The club's committee, headed by Ray M. Hoffman as chairman, and including Harold Brown, L. D. Shearer, Charles Jacobs and Daniel Wolff, will attempt to get together with Recreation Board representatives for a discussion of the matter. The site and facilities available are "wonderful" at the park for the horse show, club members said.

The final report on last year's horse show in June was given showing a net profit of \$1,594 which will be divided equally between the riding club and the Rotary club, joint sponsors.

The riding club proceeded with plans for the 1955 show on Sunday, June 19, with the site uncertain. Even if an accord can be reached on the Recreation Park site, club members said it is doubtful if the area could be prepared in time for the 1955 show which then would be held at the former site on the Bircher farm, Mummaburg Rd.

Committees Named

President Winebrenner appointed this committee to make arrangements for the 1955 show: Dr. Bruce N. Wolff, chairman; Carl Oyler, Charles Jacobs, Donald Oyler, Julius Swope, Wilson Clapsaddle, L. S. Long, R. M. Hoffman, Charles

Begs Convict-Dad To Stop Riot

BOSTON (AP)—Brunette teenage Toby Green appealed through the steel bars of a state prison window today to her father to give up the revolt he is leading in an attempted prison break.

They have stood off police and guards since shortly after 5 a.m. Tuesday. Six other convicts also are in the cell block but whether of their own volition or not was not known.

Not a shot has been fired thus far in the siege. Green's threat—"For every shot fired at us, a guard dies"—has kept authorities from attempting to close in.

Green's daughter, a slight, pallid girl wearing horn-rimmed glasses, stood in 15 minutes talking and listening through the low window of the besieged solitary confinement block. Her face was serious and she appeared on the verge of tears.

Afterward she was led into the office of Warden John H. O'Brien. There was no immediate indication whether she had succeeded or

Board of Review Upholds Decision

The state's board of review of Unemployment Compensation has upheld the decision of the local employment office and a referee that Albert H. Englebert, Gettysburg R. 4, should receive two weeks' unemployment compensation after having been dismissed by local painter, Preston Singley.

Singley had appealed the decision of the local office to grant Englebert the \$24 per week unemployment compensation after Englebert had ceased painting for Singley. Englebert, now employed by another local painter, and Singley brought their case before a referee who backed the decision that Englebert should be paid. Singley again appealed and the board of review also backed the decision of the local office, according to word received here today. It was not known whether Singley will appeal the matter to court, which would be the next step if he wishes to carry it further. In the meantime the \$48 in unemployment compensation has been held by the local employment office pending decision on the case.

"LIFE'S SWEETEST STORY"

The sweetest story ever told... was when you said I do... for in that magic moment, dear... all of my dreams came true... it was as if the world stood still... and joy was everywhere... I was enthralled with tenderness... and thrills beyond compare... quite suddenly my heart was light... and free of sad dismay... yes, it was really wonderful... that great and happy day... you opened up the book of life... its reason and its why... I knew at last that I had found... the road to places high... and so it was and is today... the tale of love's true glory... when you decided to be mine... you told life's sweetest story.

OXFORD TWP. SAW BALANCE DROP IN '54

Oxford Twp. saw its bank balance shrink, but one of its roads improve during 1954, according to the year-end report which has been filed Monday with the clerk of courts. A half-mile stretch of road, running across Oxford from Mt. Pleasant Twp. to Hamilton Twp., previously surfaced with loose stone, was hard surfaced during 1954.

Oxford began the year with \$3,066.48 cash on hand, and ended it with \$1,811.40. The total revenue for the year was \$13,034.28, while the total expenditures were \$14,289.36. There are no debts or unpaid bills listed.

Of the \$13,034.28 income figure, \$7,739.25 came from general township taxes, which were divided as follows: the five-mill real estate tax yielded \$2,110.40 in current payments and \$418.43 in back payments. The per capita tax brought in \$2,110.40 in current payments and \$459.64 in back taxes. The real estate transfer tax yielded \$2,110.40, and the social security tax, \$104.96.

\$3,203 From State
Residents owe their township \$356.43 in real estate taxes and \$1,003.08 in per capita revenue. The other principal sources of income were the state, which contributed \$3,203.43, and the county, which contributed \$1,129.22. The township garnered \$450 from liquor licenses and taxes, and \$396 from fines.

On the expense side of the ledger, \$1,163.50 went for general governmental purposes, and \$11,540.12 for

the vocal soloist, Mary Ann Burgoon.

"The board is now assisting eleven

Big Dirigible Sighted Here: Uncle

The name of the craft, painted in
dark letters on the stern of the ship,
was easily discernible from the ground.

Just as the dirigible was sighted in
Gettysburg, a light snow flurry was
felt. The ship was apparently com-
bating stiff cross winds.

TAKE FAITH — AND SEE
It isn't until we begin to see
things that we begin to do things.
This takes vision, but behind all
vision is faith—and behind faith is
God. Take faith—and see! Read
about the great of this earth and
you will discover that they have
always been men of faith, for with-
out it they could not have accom-
plished what they did.

Great men in the inventive and
industrial world, like the late Hen-
ry Ford and Thomas A. Edison,
were strong and solid men of faith.
Both were simple in their tastes
and manner of life. Both were re-
ligious men. Nothing ever seemed
to stump either of them. Each had
admiration for the other.

Not very long ago a friend took
me to visit the grave of Henry
Ford. It is in a small and intimate
cemetery, just a little way out from
the city of Detroit, near to where
he was born and built his magic
empire. Mr. and Mrs. Ford lie
there with a slab of marble cov-
ering each grave, and with a sim-
ple inscription on each slab. Before
Mrs. Ford's death she had arranged
to have built a beautiful chapel on
the adjoining grounds. It was near-
ly completed when I was there.
There two lovers are at rest!

I have travelled back and forth
over my country and every time
I marvel at what has been
achieved in hardly more than a
hundred and fifty years. Nations
with grey heads, and with centuries
behind them, never reached what
America has demonstrated. Why?
Well, in the first place this nation
has been built by free men, un-
fettered, from the simple to the
complex—yet never wavering. Men
and women of faith. Men and
women of God. That has been the
secret. They thought and lived by
faith. It is our rare privilege to
follow in their train!

Things"

Just Folks

UNSPOILED
He chuckled over this and that.
He told a joke or two.
He hadn't changed his size of hat
Or vest as some men do.
He knew, regardless of his fame,
Life's joys and griefs would be the
same.

With smiles an old-time friend he
met
And shouted: "Hello, Jim!"
Then said: "He's one I won't forget.
I went to school with him.
It's heartening to think that he,
Now we've grown old, remembers
me."

No mention of his own renown
To those nearby he made.
He told his memories of the town,
The streets on which he played.
Fame, which sets many men apart,
Had damaged neither mind nor
heart.

SAY CUSTOMER
CALLING TUNE
THESE DAYS

By SAM DAWSON
NEW YORK (AP)—The customer
is calling the tune today—or, rather,
naming the colors. You can
see that plainly enough at General
Motors' Motorama, which opened
today at the Waldorf Astoria.

Giving the customer his choice
of color combinations for his new
car isn't a production manager's
idea exactly. GM officials admit.
It causes plenty of trouble and
added effort at the factory.

But it's what the 1955 auto buyer
wants. And it's what the auto in-
dustry—in this, its fiercest com-
petitive year—feels forced to pro-
vide.

Not Factory Idea
Not that GM has any monopoly
on the rainbow. Walk a few blocks
south of GM's big show and you'll
see that big splash of color at the
Chrysler International Auto
Salon. Ford and all the independ-
ents are offering a similar wide
range of color choice to lure the
customer.

And letting the customer mix his
colors isn't exactly an idea that
auto dealers would think up either.
If they didn't feel the breath of
competition. Turn a man and his
wife loose in a dealer's show room
to pick color combinations and listen
to the arguments, the indeci-
sion, the changing of minds—far,
into next week probably.

More Complicated
Auto assembly lines get a little
more complicated in this new age
of color. It takes careful planning.
GM officials point out, to see that
when a yellow body rolls down the
line it isn't met at the strategic
point by a pink fender, or by an
unwanted shade of seat upholstery.

And what happens if a man and
his wife pick out a pretty far-
fetched color combination? GM of-
ficials say every care is taken to
head this off. Dealers have charts
of recommended combina-
tions, which the company's design-
ers think in the best taste, and
which the assembly lines are set
up to provide with reasonable dis-
patch.

If the customer should insist on
something different from the wide
choice of combinations offered
him—well, in this year of competi-
tion, he probably could get it.
He'd have to wait awhile, however,
until the factory could provide it.
And there would probably be an
extra charge for the trouble.

SMOKE HIDES FILMS
SINGAPORE (AP)—Singaporeans
are avid movie-goers, but they're
making so much smoke that they're
blotting out the screen. Theaters
flash slides before each film per-
formance, telling patrons:
"Reduce the smoke screen and
see better the cinema screen."
The appeal doesn't seem to have
had much effect. Apparently no one
has thought of banning smoking in
theaters.

DEMOCRATS IN
HOUSE TALKING
OF TAX SLASH

By CHARLES F. BARRETT
WASHINGTON (AP)—Democrats
on the House Ways and Means
Committee said today they are
considering an early drive to cut
everybody's income taxes.

The move, if it develops, would
be a reversal of earlier strategy
to wait until next year to consider
tax cuts.

It would run head-on into Presi-
dent Eisenhower's declaration on
Monday against tax cuts this year
before an anticipated \$2,408-
000,000 deficit in the bookkeeping
year beginning July 1.

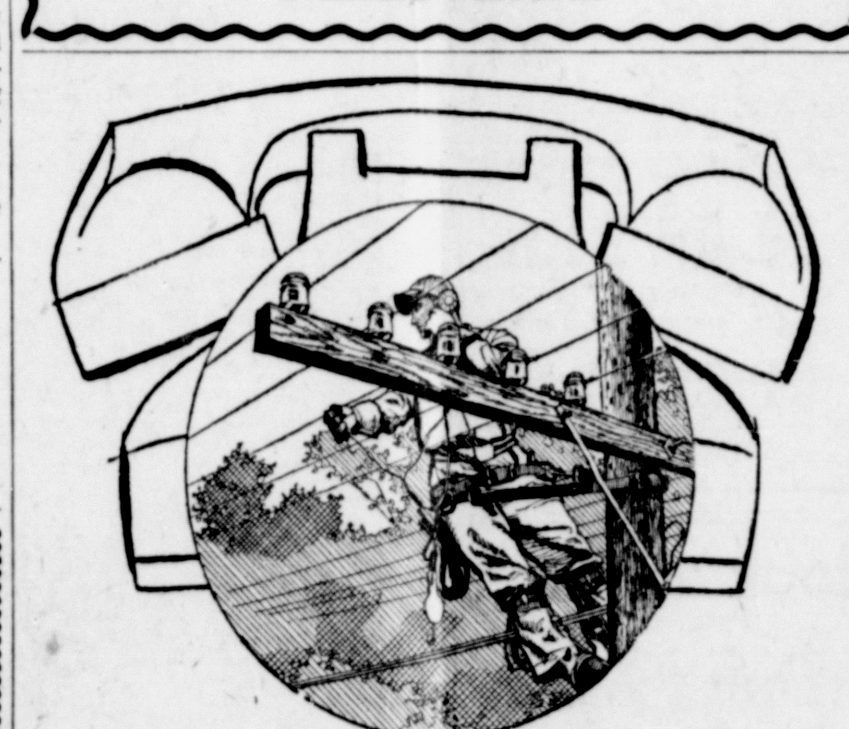

Deficit Blockade
It also seemed likely to ram into
significant Democratic opposition
in the Senate where Sen. Byrd of
Virginia and Sen. George of Geor-
gia already are on record as
against tax reductions this year.

The continuing federal deficit
loomed as the biggest factor
against the House Democrats' tax
cutting plan. But Democrats back-
ing the proposal argue that Re-
publicans cut taxes last year in
the face of an even bigger deficit
than is now anticipated for next
fiscal year.

Rep. Boggs (D-La.) said he fa-
vored writing a general income
tax cut into the Eisenhower ad-
ministration's bill to postpone
about three billion dollars in cor-
poration and excise tax cuts, now
set to become effective on April 1.
Among others known to favor some
such action are Representatives
Dingell (Mich.) and Mills (Ark.),
high ranking Democrats on the
tax-writing Ways and Means Com-
mittee.

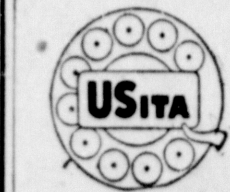

Would Raise Exemptions
They talked generally of a 100
increase in exemptions for each
taxpayer and each dependent—a
move that would cut federal reve-
nues by about 2½ billion dollars
over a full year, and relieve about

Last year, Independent Telephone Companies passed the
billion-and-a-half mark in plant investment. In ten years,
this thriving industry has doubled its size. The years
ahead promise even more. Why? Look at decentralization.
Business is shifting plants and personnel over wider and
wider areas. Independent Telephone Companies are
there—ready to provide the growing communications
set-ups required. And look at technical progress. Such
modern advances as long distance radio links and direct
intercity dialing, both by operators and by customers,
are multiplying telephone use. The growing Independent

ISLAND ATTACK
MAY BE TEST OF
U.S. RESTRAINT

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP)—When Dag
Hammarskjold returned from Red
China, where he sought the release
of 11 captured American airmen,
he said the door can be kept open
for them, "given restraint on all
sides."

This would indicate he had con-
cluded on his own that "restraint
on all sides" was needed to win
the fliers' freedom or that the Chi-
nese Communists had told him it
was a necessary preliminary.

From the events of yesterday,
it appears either that (1) Ham-
marskjold misunderstood the Reds or
(2) the Red Chinese think restraint
applies only to the United States
and that now they can push this
country quite a bit.

Communist Test
The Communists didn't wait long
to test the United States after
Hammarskjold's return. It may be
only the first of many tests. Yes-
terday they claimed capture of the
Nationalist-held island of Yikiang-
shan off the China coast. The Na-
tionalists denied the claim.

This was done almost under
the nose of the U.S. 7th Fleet, which
is in the vicinity of Formosa and
the nearby Pescadores Islands,
which are held by the Nationalists
of Chiang Kai-shek, American ally.

The United States, not recogniz-
ing the Communists as the legiti-
mate leaders of China, has not
only backed Chiang but has an-
nounced it would defend Formosa

four million low-income or big-
family taxpayers from any income
tax bill at all.

Also under study was a flat 20
tax cut for each taxpayer and
each dependent. This would cost
the Treasury about 1½ billions a
year.

This Burglar Is

DENVER (AP)—Andy Mares, a
foreman at a products company,
reported to police yesterday a bur-
glar broke into the plant through a
side door, ransacked desks and
cabinets, broke the locks off tool
boxes, and knocked the dial off a

open the strong box.

Then he left the following note
in a company typewriter:
"This night has convinced me
that tomorrow I am starting to go
straight. Your friend, the burglar."

and the Pescadores against Red
attack.

Restraints Reds
The presence of the 7th Fleet is
probably the only reason the Chi-
nese Communists have not yet at-
tempted to capture it.

Should the United States get into
the fight if the Reds tried to take
some of the small Nationalist-held
islands? If it did, and attacked
the mainland, would this mean all-
out war with Red China and its
ally Russia?

If the United States held back
and let the Reds hop from island
to island, would they have restraint
enough not to try to attack For-
mosa or would they look upon
American restraint as weakness
and then plunge ahead?

Made No Deals
In case anyone suspects there
may be a secret deal to let the
Reds have these islands in return
for the captured Americans, Ham-
marskjold said he made no deals
in Red China.
But if the United States wants
the American captives back, it will
have to show restraint, perhaps
under repeated Red affronts, and
the Reds know it.

TWO ARRESTED
AS SUSPECTS IN
GIRL'S MURDER

TRENTON, N. J. (AP)—Joseph De
Maio, 35-year-old ex-convict, was
arrested yesterday, after being
picked up by chance, and held for
Connecticut authorities on a charge
of killing his Sunday night date,
pretty Celia Cienski, 20.

De Maio and a friend were ar-
rested separately in New Jersey
within hours after the girl's nude
and battered body was pulled from
the bottom of an icy canal near her
home at Windsor Locks, Conn.

A New Jersey state trooper, who
stopped De Maio on a routine high-
way check, reported that as he ap-
proached the car, De Maio blurted,
"I didn't mean to do it, officer."

The trooper said De Maio offered
no resistance and indicated he
would return voluntarily to Con-
necticut.

Friend Surrenders
A short time later, De Maio's
friend and fellow construction
worker, Gerald J. Clette, 34, vol-
untarily surrendered in Newark,
N. J. He told police he had read
that he was wanted for question-
ing. He was formally charged with
aiding and abetting in a homicide.

The men, both of Springfield,
Mass., are to be turned over to
Connecticut authorities after ar-
rangement later today on fugitive
charges.

On Sunday De Maio and Clette,
a father of two children, had a
double date with Celia and her sis-
ter Ann, 22. The older sister had
met the pair in a hotel, she told
police, and took them home to get
Celia. The two couples then visited
a number of bars together but later
separated.

At the Hightstown, N. J., state
police barracks, where De Maio
was first taken after his arrest,
Trooper J. A. Smith reported that
De Maio made a statement in
which he told about the double date
and how he later went off alone
with Celia.

Smith quoted him as saying he
tried to attack the girl but she
fought back, scratching his face
sharply. Then she ran into the
woods, he said, but he caught up
with her and beat her.

Shippensburg Shoves GHS Into SP Cellar Via 73-45 Win Here; Scrubs Triumph

Turning in a ragged performance throughout, the Gettysburg High School cagers absorbed a 73-45 drubbing at the hands of Shippensburg here Tuesday evening to drop into the cellar of the South Penn League.

It marked the first victory in seven league games for the Greyhounds and was the sixth straight loop setback for the Warriors.

The Greyhounds lived up to their name as they out-speeded the locals throughout and won with surprising ease. Frank Wyrick, 6-4 center for Shippensburg, poured 32 points through the hoops to lead the visitors and remain as one of the top league scorers.

Coach George Forney's lads were in contention only in the first period. A goal immediately after the tap-off by Wyrick and another by Weaver got Shippensburg off to a 4-0 lead before the Warriors moved to the front on successive goals by Merle Gorman, Jim Everly, Rolf Johnson and again Everly. Shippensburg shot ahead at 9-8 before Jeff Langsam gave Gettysburg its last lead at 11-9 on a goal and foul. A pair of fouls by Linn and goal by Kauffman put Shippensburg on top 13-11 after 7 minutes and the visitors led the remainder of the way. At the quarter Gettysburg trailed 16-14.

Wyrick landed four goals in the first 3:30 minutes of the second frame as the Greyhounds raced to a 26-16 lead. A goal and foul by Johnson and another goal by Everly made it 26-21 before Shippensburg spurted for a 31-21 half time advantage.

Time and again the Warriors missed comparatively easy shots during the last half as Shippensburg pulled far out in front. Wyrick tabbed 11 points in the third period while no Gettysburg player made more than one goal. Going into the final period it was 51-34.

Substitutes played much of the final frame as the Greyhounds continued to dominate play.

The Gettysburg jayvees held the visitors scoreless from the field in the first period as they breezed to an easy 38-22 decision in the preliminary. Bobby Hess and Earl Little accounted for 34 points of the Gettysburg total.

The Warriors journeyed to Carlisle for another league engagement Friday night.

DELONE DRUBS MT. CARMEL FOR 1ST LOOP WIN

Delone Catholic High vacated the cellar in the Central Penn Catholic League by defeating Mt. Carmel 57-46 on the winners' court Tuesday evening. The victory marked Delone's first victory in the league against three setbacks.

The Squires gained a 15-8 lead at the end of the first period. Jim Breighner opened the scoring for Delone by landing a long set shot. Dan Greenholt followed with a one-handed push shot from the side. Gerry Boyle then tallied a lay-up for the Rams after 3:05 minutes of the game. Dick Smith, Carroll Funk and Greenholt boosted Delone to a 10-2 count by hitting on push shots. While Bob Marinelli was dropping a pair of foul shots, Breighner tossed in a free throw and push shot and Funk stole the ball for a lay-up. Darrup hooped one from the corner and Boyle racked up a lay-up as the period ended.

Squires Hike Lead
Delone forged far ahead in the second quarter by overpowering the Rams 16-6. Bob Darrup looped a pair of free tosses to open the stanza. Dick Smith duplicated a few seconds later while Greenholt and Phil Staub landed a set and lay-up, respectively. Griscavage tapped in a rebound as Dick Smith uncorked a two-pointer on a fast break. While Funk and Boyle were battling on the foul line, Greenholt, Staub, and Mike Brady were capitalizing on the short field goals. By the end of the first half Delone had moved out in front 31-14.

In the second half Coach Gene Bonnell called upon several his jayvee players for some varsity action. Mt. Carmel dominated the scoring in the third and fourth periods as they outscored Delone 32-26.

Boyle sank a pair of fouls for the Rams but Greenholt swished a push shot to open the third period. Captain Bill Coddington then hooped two more free throws while team-mate Gerry Boyle lifted a long jump shot. Jude Smith and Mike Brady tapped in the rebounds, but Boyle scored on lay-ups and free tosses while Coddington connected from the outside. Delone's lead was now cut to 42-30 at the end of the period.

At this stage of the game, Jim Strazella, Chuck Doll, Gene Groff, Jie Poist and Phil Staub, Delone's reserves, took over. They were able to keep up with the Rams' varsity. Gerry Boyle was the tough man to hold down as he collected 10 points in the final period.

Boyle was high man of the evening scoring a total of 28 points. Captain Dan Greenholt led the Squires with 15.

Reserves Triumph
The Delone reserves downed the Mt. Carmel reserves 46-26. The win gives the little Squires eight victories against two losses. Delone picked up a quick 14-7 lead in the first period and was never in serious trouble. Gene Groff, 5'4" Squire guard, was high man with 15 points while John LoBuckie, Carl Shannan, and Chuck Griscavage all collected six for Mt. Carmel.

On Friday Delone will travel to the Harrisburg to take on Harrisburg Catholic.

Your Income Tax Use Care In Picking Forms

By FRANK O'BRIEN
The Associated Press

The amount and kinds of income you had in 1954 determine which of the tax forms you are eligible to use.

You may have a choice of forms. In that case, your choice will probably depend upon whether you decide to accept the standard deduction for personal expenses, or to itemize your deductions so as to get more than the standard allowance.

The standard allowance is approximately 10 per cent of your adjusted gross income; that is, 10 per cent of your total income after any business-connected deductions have been subtracted. Deductions will be discussed in articles 7 and 8 of this series.

There are just two basic individual income tax forms—1040 and 1040A. But 1040 can be used as either a short form or a long form. There is no separate short form 1040 or long form 1040.

The forms have been considerably revised this year to conform to the new tax law. But the 1954 federal income tax forms are basically the same as those used now for many years.

Must Use 1040

Persons with adjusted gross income of \$5,000 or more must use form 1040. In doing so, they may either itemize their personal deductions, or take the standard deduction allowance.

Persons with income of less than \$5,000 may use form 1040A, short form 1040, or long form 1040, depending on the kinds of their income, and how they want to handle it.

There are a number of deciding factors. Here they are, beginning with form 1040A, the simplest tax return, through 1040 short and 1040 long:

1040A—To be eligible to use this form, your income during 1954 must fit these specifications:

1. It must be less than \$5,000. That means up to \$4,999.99. If it is a joint return, the combined income of husband and wife must not exceed \$4,999.99.

2. It must consist entirely of wages from which income tax was withheld and reported on a withholding form (W-2) you get from your employer or employers, or Less Than \$100

3. of wages up to \$4,899.99 from which tax has been withheld, plus not more than \$100 more of other wages, interest and dividends. This would not include dividend receipts excluded from your income, because only the taxable part counts in this \$100. If it is a joint return, the husband and wife together must have no more than \$100 of income from which taxes were not withheld.

4. Your income must not include receipts from any of the following if you are to use 1040A:—annuities; rents; royalties; retirement income; business profits or professional earnings; farming; transactions in securities or other property; earnings as a participant in partnerships, estates or trusts; or reimbursed expenses which are taxable.

5. You may not use form 1040A if you want to deduct business-connected expenses from your income (such as travelling costs); or if you have a tax credit coming to you from dividend or retirement income; or if you claim the special "head of household" status or the new "joint return status" of a widow or widower whose spouse died in 1952, 1953 or 1954.

Commissioner of Internal Revenue T. Coleman Andrews urged all who are eligible to use form 1040A: "This card-type form was specifically designed to make tax filing as easy as possible for many millions of taxpayers. For those millions who can use it, it is simplicity itself. The ease of preparation will save the user time and inconvenience. We will save time and money because the card processing is accomplished mechanically. Our savings are the tax payers' in the final analysis, for it is the taxpayers' money that pays for the collection of the nation's revenues."

As previously, users of this form simply put down their name and social security number (husband and wife), address, whether or not it is a joint return, total wages, total taxes withheld, other income, credits and exclusions, and list exemptions.

The wages, withholdings, other income, credits and exclusions of both husband and wife are set down separately on the card if it is a joint return.

You then put the card, along

with your W-2 forms, in an envelope mailed with the form, and send it to the district director.

The district director's office, using this information, figures your tax for you and sends you a bill or refund.

The special credit (line 11 on the card) is for any excess social security payments you or your wife may have made last year, and will be discussed in the sixth article in this series. The exclusion (line 12) is for pay received while off work due to sickness and will be discussed in the fifth article of the series. If you claim either of these, you should enclose a written explanation with your 1040A return.

"Other Income"

The box at line 10 on the 1040A card for "other income" is for all income other than wages on

which taxes have been withheld. This would include any wages on which tax has not been withheld, interest, and dividends. You may exclude \$50 of your dividend income under the law, entering only the remainder. If it is a joint return, your wife is entitled to a separate \$50 exclusion.

If what you and your wife (if it is a joint return) enter at line 10 adds up to more than \$100, you may not use 1040A, even though your total income might be well under \$5,000.

A special, single-page instruction sheet for form 1040A was mailed with the form in addition to the regular instruction booklet. It tells you how to use the form, line by line.

Short form 1040—Here, your adjusted gross income must be less than \$5,000—up to and including

use this form if your deductions for employee expenses cut your adjusted gross income to under \$5,000.

Any Sort Of Income

Any sort of income may be reported on this form, so you may want to use this short form 1040 if you are forced off of 1040A by some kind of income that may not be reported there. For instance, if you want to claim a tax credit for dividend income, or have any retirement or rental income, you must use form 1040, short or long.

Also, if you have some employee expenses that you want to deduct from your income (not possible with 1040A), this is your next simplest form. These business-connected deductions, in general, include certain reimbursed expenses, and costs to you as an employee of travel and transportation, or

your expenses as an outside salesman.

You may use this form and deduct from your tax any credits you have coming to you from dividend or retirement income. But you may not itemize personal expense deductions and still use the short form.

Your Liability

A table on the back page of the instructions mailed to you with your tax forms will tell you your tax liability according to your marital status, the number of your exemptions, and the size of your adjusted gross income. The table automatically gives you the standard allowance for personal deductions.

Long form 1040—Regardless of the size of your income, if you want to itemize your personal deductions, you must use the long

form. If your adjusted gross income is over \$5,000 you must use it, whether you want to itemize, or want to take the standard deduction for personal expenses.

The principal difference between long and short 1040 is that in using the long form you work out your tax liability yourself, instead of finding it in a table. You get the help of a table on page 14 of the instructions, that does part of the work for you after you have found your taxable income.

The next article, No. 3 in this series, will deal with the joint return, in which important changes have been made by the new tax law, and requirements for filing as a head of household.

(Next: The new law on joint returns.)

TATUM LASHES BACK AT N.C.A.A. FOR CRITICISM

COLLEGE PARK, Md. (AP)—Take a charge—any charge—from an accrediting group's report of impurities in the University of Maryland athletic program and Jim Tatum can give you an explanation.

For example, the Middle States Assn. of Colleges and Secondary schools reported that athletes, who total only 8 per cent of the student body, are receiving 78 per cent of the scholarships.

Why, says Jim, "we don't have too much assistance for athletes. We should just have more for academics."

The Maryland football coach and athletic director isn't very concerned with the report. But one section affects his blood pressure.

That's the association's report that Maryland violated Atlantic Coast Conference and NCAA recruiting rules by luring a youngster away from Little Allegheny College in Meadville, Pa.

Eligible For Scholarship
Tatum said one of Maryland's assistant coaches spotted the boy in a high school all-star game in Pennsylvania and talked to him after the game, unaware that he was tabbed for Allegheny. The coach did not offer him a scholarship, Tatum said, but did tell him he was eligible for one.

The boy, who has an uncle living here, had hoped to attend Maryland but didn't have enough money, Tatum said. After talking to the assistant coach, he visited the Maryland campus, made application for a grant-in-aid and was accepted, he added.

"If a boy plans to go to a school that was not his first choice, then finds that altered circumstances permit him to attend his first preference," Tatum said, "then naturally, the boy is going to apply for admission there."

In Meadville, Athletic Director H. Paul Way of Allegheny said the boy apparently was Tom Steff, a tackle from Brownsville, Pa., High School. Way said: "Steff is the only student we ever lost to Maryland, as far as I know."

He said Steff was "a very good student" and was awarded an academic scholarship at Allegheny. "We have no athletic scholarship fee, which is sort of an advance payment on lodging. After he enrolled with us he played in a high school all-star football game at Pittsburgh. He never came back to Allegheny and, of course, he lost his enrollment fee," Way said.

"He went to Maryland. I suppose they offered him a better scholarship... It is not unusual for students to enroll at one college, then change their mind and enroll at another."

Navy Points Out January Benefits

Legislation introduced in Congress provides that persons serving in the Armed Forces on January 31 will continue to gain the educational benefits of the Veterans Readjustment Assistance Act of 1952, the U. S. Navy announced today. Chief Quartermaster Louis W. Knott, in charge of Navy recruiting in the York area, has asked that any applicants wishing to enlist before this deadline should get in touch with him immediately, as it takes several days to process the applications.

The offices of Navy Recruiting, in the York Post Office Building, will be open Monday through Saturday, 8:30 a.m. to 5 p.m. Those desiring further information are requested to call York 7653.

BRITAIN DROPS FOOD TO FROZEN SCOTLAND AREA

LONDON (AP)—Britain mobilized a fleet of some 30 helicopters and planes today to drop food and medicines in frozen northern Scotland.

At least 20 persons were known dead as a result of the week of snow, ice and flood—including 13 in Germany, 2 in France, at least 5 in Scotland and an unannounced number in Communist Poland.

More snow was predicted for much of the British Isles and Europe, where blizzards, gales and floods have raged for more than a week.

The 13,000-ton British aircraft carrier Glory steamed toward northern Scotland to act as a floating base for helicopters engaged in rescue missions over the snow-bound counties of Caithness and Sutherland.

The Royal Air Force ordered more than 20 planes to a relief base at Kinloss.

Drifts Isolate 10,000
More than 10,000 persons in Caithness and Sutherland were cut off by 20-foot snowdrifts and fallen telephone lines. Radio broadcasts advised them to make an "F" on the snow if they needed food, or a "D" if a doctor was required.

Another blizzard interrupted rescue operations late yesterday.

Freezing weather early today put some check on flooding in the Mosel and Rhine rivers of Western Germany. At Bonn, the West German capital, the flood crest on the Rhine was still to come but already the basement of the Federal Parliament Building was full of water. Workers ringed the structure with 40,000 sandbags to head off the rising river.

At Mehlem, near Bonn, the U.S. High Commission was flooded out of its headquarters, where 2,000 Germans and 450 Americans are employed.

Dam May Burst
In France, the flooding Garonne neared the danger mark and there was fear that the dam at Toury, on the Eure River, would burst. More than 3,700 persons were evacuated from low-lying areas in the Rhone Valley.

Winds ranging up to 60 miles an hour lashed Italy's Liguaria coast, smashing summer cottages, uprooting trees and driving huge waves across coastal roads.

Mountainous waves continued to lash the sea, keeping the damaged Greek ship Corinthia from reaching port. The 3,879-ton vessel rammed a reef midway along the coast between Rome and Leghorn yesterday, smashing a hole in her bow.

All 167 passengers were removed by another ship after the damaged vessel maneuvered off the reef and into shelter in a cove. Her crew remained aboard.

When you are serving buffet-style, it is always best to split and butter rolls ahead of time and then heat them. If French or Italian bread is served you can butter the slices, too; but be sure to have the bread keep its original form because it looks most attractive that way. Cut the slices all the way through so guests won't have to struggle to take a piece while they are holding dinner plates or trays.

U.S. CURTAILING PLEDGES FOR FORMOSAN AID

By JOHN M. HIGHTOWER
WASHINGTON (AP)—The Eisenhower administration is curtailing its pledges in defense of Formosa to the minimum called for under the new mutual defense pact with Chiang Kai-shek's Nationalist China.

A top-level government decision against using the 7th Fleet in defense of the Tachen Islands off the Red China coast is an indication of that policy development.

Secretary of State Dulles indirectly disclosed the decision at a news conference yesterday. In doing so, he reportedly was prompted by word from key Democrats on the Senate Foreign Relations Committee that their task in winning approval of the defense pact would be assisted by evidence that the treaty would definitely not cover the offshore islands. Signed early in December, the pact has not yet been ratified by the Senate.

Trying To Stabilize
The decision on the Tachens fits into a developing effort by the United States to stabilize the whole area around Formosa, Chiang's refuge. Exactly how this is to be done is far from clear. The British government has been thinking in terms of letting the Nationalist-held islands close to the China coast go eventually to the Communists while confirming Nationalist China permanently in possession of Formosa and the nearby Pescadore Islands. Under this plan, the dividing line would be the center of the Formosa Strait.

Implied in all this, diplomats say privately, is withdrawal from the long-range objective of having Chiang someday return to the mainland in an anti-Communist invasion—his oft-stated goal.

Administration policies bearing on Formosa are still in a formative state, but it appears they may produce sooner or later new controversy within the Republican party over U.S. Far Eastern policy.

Reject Knowland Stand
One difference in the party was pointed out yesterday when Dulles rejected a contention by Republican GOP Leader Knowland of California that United Nations efforts to obtain the release of American flyers imprisoned in China had failed. Dulles said this country is backing the U.N. campaign fully.

In other main points on Far Eastern policy, Dulles said Yikiangshan, which the Reds claim to have captured from the Nationalists yesterday, is not a place of importance. Yikiangshan, near the Tachen group, is 200 miles north of Formosa. Further, Dulles said the Tachen Islands have only a "marginal" importance as a radar outpost in the defense of Formosa.

Deny Isles' Fall
The Nationalists early today denied that Yikiangshan had fallen and said the islands "are still in the hands of our guerrillas."

Against a background of statements by Dulles in recent months, this took on a policy significance. Always before the secretary had said the defense of any particular island near the Red China coast would be decided in terms of its vital usefulness in defense of Formosa. When he described the Tachens as not essential to Formosa's defense, in effect he ruled out any use of the U.S. 7th Fleet to protect them.

Refused To Cooperate
Miles Horst, Republican state chairman, said Democrats, when they were in the minority, "invariably refused" to cooperate with Republican administrations on tax programs.

"We do not accept Gov. Leader's statement that there is a need for 500 million dollars in additional revenue to meet the commonwealth's obligations," Horst said. The GOP chieftain promised his party's cooperation only if Leader "sincerely wants" it.

Republicans are in a position to enforce what they dislike of any Democratic tax program. They have a 26-24 majority in the Senate, even though Democrats control the House where tax bills must originate.

Democrats were still breathless from inauguration festivities that ran long into the night.

Four-Hour Parade
After the formal inauguration ceremonies, Leader reviewed a four-hour long parade in the afternoon and, with his pretty wife Mary Jane, led the grand march at the inaugural ball last night.

The Legislature, after only a token session, adjourned until next Monday.

The Republican-controlled Senate in a reversal of intentions, unanimously approved Leader's cabinet choices.

Sixteen department heads took the oath in the governor's reception suite. The only exception was Brig. Gen. Anthony J. Drexel Biddle Jr., Philadelphia. Biddle will take office at the end of March after winding up his duties on the Army General Staff in Washington.

Leader, in his first official action, wrote the economy memorandum in an obvious move to underline the tremendous fiscal problem facing his Democratic administration—the first in 16 years.

He wrote:
Orders Revised Allotments
"I want you to review your organization immediately to ascertain unnecessary positions. Then I want you to eliminate them."

"2. No position vacancy in your agency is to be filled unless you have established its necessity for the operation of your agency."

"3. Please review all salaries in your agency. I understand that in the last few months a large number of so-called 'meritorious' salary no doubt some of these increases were merited for exceptional service. Where, however, you find no justification, you will take immediate steps to rescind these increases."

"4. I want you to review, moreover, the budgetary allotments made to your agency for the remainder of the current biennium... Please furnish my office, not later than Jan. 31, revised allotment requirements for the balance of the biennium, showing the amount of the appropriation you expect to lapse."

Also attending the dinner were the president and vice presidents of the York and Lebanon Shrine Clubs.

Defense counsel Robert E. Knapp asked the jury of seven women and five men to acquit Schaeffer on all charges. He said the "fire started in some other way" and was not deliberately set.

Leader Takes Governor's Oath

LEADER ORDERS \$20 MILLION CUT BY JANUARY 31

By LEONARD A. UNGER
HARRISBURG (AP)—Gov. George M. Leader laid it on the line today: His Democratic department heads must shrink 20 million dollars from the expiring Republican budget by Jan. 31.

The economy-minded chief executive used almost fighting words in ordering "unnecessary positions" eliminated.

In a 300-word memorandum, he also said that unjustified recent salary increases must be rescinded.

"The fiscal situation facing the commonwealth is grave," he told commonwealth administrators. "I am determined that no money collected from the taxpayers of Pennsylvania will be wasted in government."

Need Half Billion
In his inauguration speech yesterday, the 37-year-old chief executive estimated that the 1955 Legislature will have to raise up to a half billion dollars in new revenues because of a fiscal dilemma he said was inherited from previous administrations.

"There are indications of possible excesses totaling more than 20 million dollars from 1953-55 appropriations," his memorandum said. "I am anxious to realize the maximum savings consistent with the provision of sufficient funds to permit the state government to function effectively."

But even as he signed the economy order, Republican leaders fought back at Leader's demand for a bipartisan approach to the tax problem.

Shriners

ods of conservation we could find ourselves at a point where we would be unable to feed our own population. Hence, conservation must soon become our Number One project with priority over open-handed foreign aid and magnificent transcontinental highway systems that will cost billions we cannot afford Tennessee congressman declared. Tennessee Congressman declared.

Potentate Reichard Speaks
The veteran solon urged Americans to "unite in the solution of domestic problems and the conservation of our resources."

Potentate Reichard, attending his first meeting of Shriners since his recent election, told of the program of Zumbo for the coming year and urged the active participation of Adams County Shriners.

In his introduction of the speaker, Tom Kemmerer recalled his numerous visits to Gettysburg and participation in Shrine activities. He is from Springfield, Missouri, where he is a member of the Shrine.

The new president of the Adams County Shrine Club paid tribute to his predecessors in office and pledged that the prestige they had accrued to the Adams County organization will be maintained.

Describing the crippled children program of the Shrine as the original project of its type and as "the world's greatest charitable and humanitarian activity," he said.

Need Shrine Facilities
"Every Shiner contributes regularly through his Temple to this national Shrine project and the endowment and support of the several Shrine hospitals throughout the land."

He then explained the need for new hospital facilities in Adams County and said strong efforts are being made to get the first phase of the new building program underway within the year.

"The second phase includes a pediatric or children's ward which is urgently needed. It would be entirely in keeping with the precepts of the Shrine were the Shriners of Adams County, whether they are members of this club or not, to contribute annually to the fund that is hereby established, to create the children's ward of the Annie M. Warner Hospital of Adams County, which must be built within the next five years."

The new president said participation will be on a voluntary basis and not by assessment. He expressed confidence that there would be 100 per cent participation and that at the required time funds necessary to establish and endow the children's ward will be available.

Thank Retiring Officers
A vote of thanks was directed to the retiring officers. James Mumper, treasurer for several years, relinquished that office. John D. Teeter, who a month ago resigned as first vice president because of his inability to accept the presidency to which position he would have advanced, was given warm applause when he was presented.

Congressman Davis had as his personal guest at the dinner the former congressman of this district, S. Walter Stauffer, whose service in the lower house of Congress he praised "even though he sat on the other side of the aisle."

Accompanying Potentate Reichard as members of his official party were: William E. Miller, Harrisburg, assistant rabbi; Ward Wynn, York, high priest and prophet; Frank Evans, oriental guide; Harry Harman, treasurer; Dave Perry, Dale Fohl, Ray Peiffer and Samuel Wilson, aides to the potentate; Nelson Shuey, official photographer; Paul Swab and John Eshelman, past potentates.

Also attending the dinner were the president and vice presidents of the York and Lebanon Shrine Clubs.

SAM SHEPPARD'S FATHER DIES IN OHIO HOSPITAL

CLEVELAND (AP)—The father of Dr. Samuel Sheppard died last night at Bay View Hospital of a respiratory ailment.

Two brothers of Dr. Sam, who was convicted of killing his pregnant wife Marilyn, said their father, Dr. Richard Sheppard, 64, "lost his will to live" after the suicide of his wife 11 days ago.

Dr. Sam was kept in a special observation cell today while guards at county jail maintained close watch.

Mother Died January 7
Just a few days ago the younger Sheppard, who is appealing his conviction for second-degree murder, had been returned to his regular 4 by 8-foot cell. He had been under observation since Jan. 7, when his mother shot herself in the head.

Jailers said Sheppard, 31, appeared to know something was wrong last night as soon as he was brought to the jail's visiting room and saw his two brothers, Dr. Richard N. and Dr. Stephen, and their wives. It had been there that he had learned of his mother's death.

Placing a hand on Sheppard's shoulder, Dr. Richard said to him: "You must know why we are here."

Quietly he said: "Dad passed away tonight."

Sheppard sobbed, his head in his hands.

The brothers and their wives spent 15 minutes with the prisoner. They had come to the jail directly from the Bay View Osteopathic Hospital, where the elder Sheppard was chief of staff. They had been summoned to his bedside, but did not arrive before he died.

Leader's 15 Cabinet Members Are Confirmed And Sworn In

HARRISBURG (P)—Fifteen cabinet members appointed by Gov. George M. Leader began their duties today with a sign of relief. Their oath taking in the governor's office yesterday proved to be more of an ordeal than any one had anticipated.

All 15 were confirmed unanimously by the Senate. They gathered then for the swearing-in ceremony in the ante-chamber of the chief executive's suite.

Room Was Jammed
The room, about 90 by 20, became jammed by relatives, friends and well-wishers.

The temperature, in contrast to the freezing weather outside where Gov. Leader took his oath, rose to the 90's. The surging crowd, in the neighborhood of 300, pushed forward leaving just about no room for the ceremony.

Governor's office personnel tried to stem the tide; state police tried to make room for the cabinet appointees. Finally Sen. Joseph M. Barr, Democratic state chairman, took over, urging the people to make way.

Justice Jones Gives Oath
No one moved.
The way was cleared a bit, however, when Leader entered the room.

Questions Leader's Figures On Deficit

HARRISBURG (P)—Rowland B. Mahany (Crawford), state Senate Republican leader, questions the accuracy of the half-billion dollars Gov. George M. Leader says is needed in new taxes.

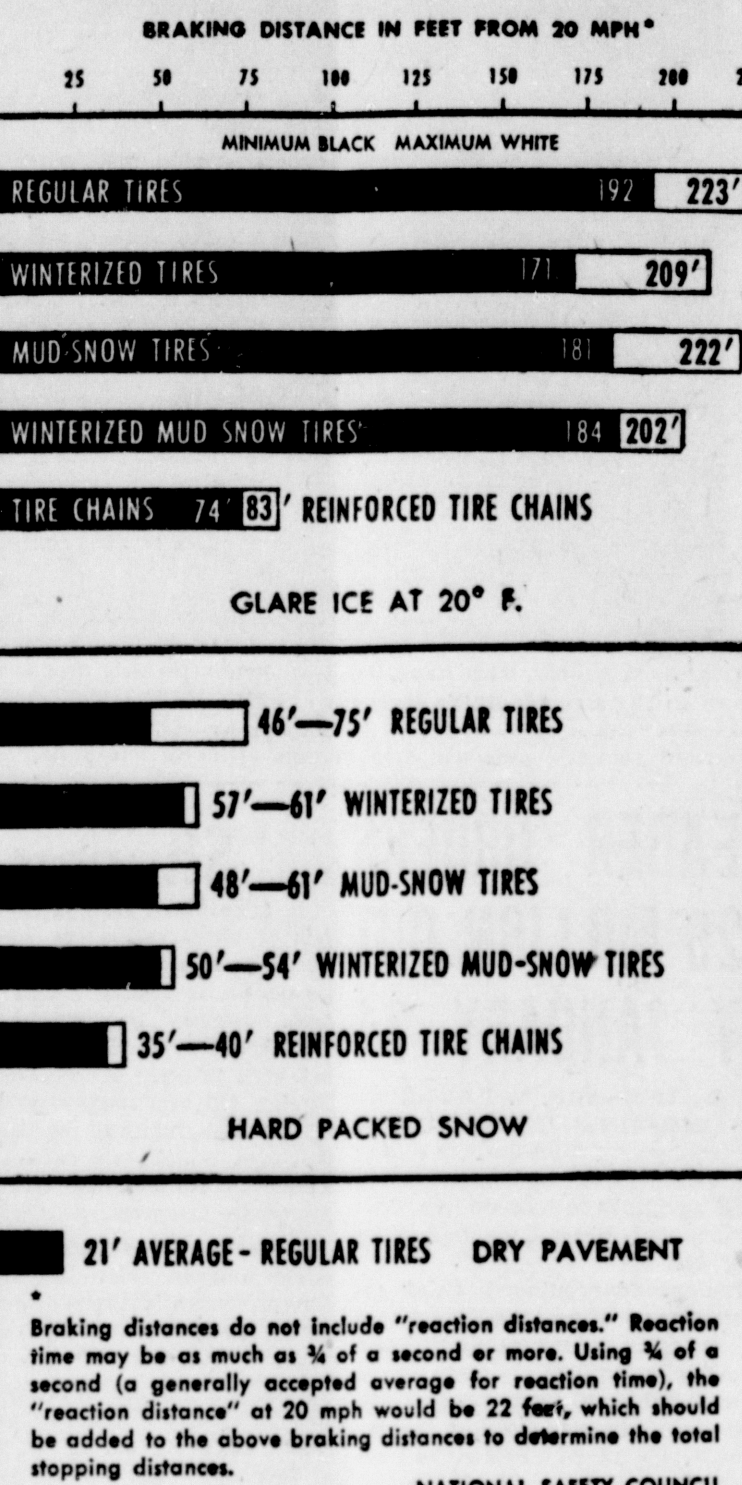

Leader has said that between 400 to 500 million dollars in new taxes will be needed to finance the state government in the next two years.

In a television interview last night, Mahany said Leader's figure included departmental allocation requests "which are always much higher than the departments actually expect to receive."

The Senate Republican leader said the new governor is responsible for submitting a tax program to the Legislature to balance the 1955-57 budget.

Leader said earlier this week "I'm not prepared to discuss our tax measures. Up to this point our study has been preliminary."

TWO SENATORS WILL SEEK NEW PWA PROGRAM

HARRISBURG (P)—Two Democratic senators said today they will ask the General Assembly to press Congress for enactment of federal legislation to establish a public works program.

Sens. John J. Haluska (D-Cambria) and William J. Lane (D-Washington) said their main purpose would be to gear machinery for having such a program set in motion immediately in Pennsylvania should it be approved by the federal government.

Haluska and Lane said they will put forth their idea in the form of a joint resolution to be approved by both houses of the Legislature and sent on to Washington.

A number of bills to establish a public works program already has reached Congress.

60-40 U.S. Aid
The Pennsylvania plan, Haluska and Lane said, would be to get federal aid on a 60-40 basis, with the federal government paying the larger share.

"Half of the state's share then could be provided by local governments deciding to carry out public works," Haluska explained.

"The entire plan would be on a temporary basis," Lane added. "If needed beyond a two-year period, the program could be reenacted."

Haluska some weeks ago said he intended introducing legislation in the 1955 General Assembly to get the plan underway.

"After considering the matter further," he said, "I decided we had better proceed with a joint resolution urging passage of the plan by Congress State legislation implementing the program then could follow."

Both Haluska and Lane said the program would include only persons "in dire need"—those on relief or unemployed.

"Salaries would be on the basis of local wage rates," Lane said. Included in the public works program would be such construction projects as highways, public buildings and sewage disposal facilities.

DEFEAT PLANS FOR MERGER OF PRESBYTERIANS

ATLANTA (AP)—Southern Presbyterians have defeated a plan to merge the three branches of the Presbyterian Church into the Presbyterian Church of the United States.

The Southern branch of the church, which has 1.5 million members, defeated the plan by a vote of 22 to 10.

The plan, which was proposed by the General Assembly of the Presbyterian Church of the United States, would have merged the three branches of the church into a single denomination.

The Southern branch of the church, which has 1.5 million members, defeated the plan by a vote of 22 to 10. The plan, which was proposed by the General Assembly of the Presbyterian Church of the United States, would have merged the three branches of the church into a single denomination.

Twelve negative and four posi-

tive votes had been cast in earlier balloting.

The 26 negative votes were more than enough to kill the plan. Only 22 were needed, as approval of three-fourths of the 86 presbyteries was required for acceptance. However, voting will continue into April.

Approval would have united the 757,000-member Presbyterian Church in the U.S. (Southern) with the 2½-million-member Presbyterian Church in the U.S.A. (mostly Northern) and the 229,000-member United Presbyterian Church (largely Midwestern).

Top governing bodies of all three branches, called the general assemblies, approved the merger last year and the voting was on ratification by the regional presbyteries.

Northern presbyteries have been coming out solidly for the union, with endorsement already received from 45 of the 256 districts. Each presbytery is made up of the pastor and one elder from each congregation in the district. The elders have equal voice with pastors in the regional votes on ratification.

East Berlin

EAST BERLIN—The Radiant Star Class of Red Run Sunday School presented its comedy play, "The Old Crab," for the Friendly Bible Class at St. James Lutheran Church, West York, Saturday evening.

George M. Wehler, near Holtzschwamm, once a teacher at East Berlin High School, has begun suit in common pleas court, York, against Harold H. Wagman, York R. 2, for \$62 damages resulting from an auto-motorcycle collision in York, February 26, 1954.

The Rev. J. Keller Brantley, pastor of Holtzschwamm Reformed congregation, has been on a trip to his native North Carolina, accompanied by Mrs. Brantley.

Charles Eisenhart is among army men returning from Alaska where he has spent 18 months undergoing training. The young man entered service two years ago. His wife, the former Dorothy Mae Resser, has a position at Mechanicsburg, and has been residing at their home in the property of Miss May E. Jacobs.

Ralph W. Hamme, Hanover, was a visitor to East Berlin last week. Robert W. Trimmer has returned to his army post at Camp Stewart, Ga., after a furlough spent with his wife, the former Phyllis M. Glatfelter, and with his parents, Mr. and Mrs. Harry Trimmer, Hamilton Twp., near here.

The Rev. Charles H. A. Price, Walkersville Reformed clergyman,

look, published at Richmond, Va., said in an editorial that "it is recognized that the ministers of the church are largely in favor of union. It is also recognized that it is the elders who have caused the present postponement."

Other reasons cited for Southern opposition included a belief by some members that the Northern church was too "liberal" in some portions of its theology and the feeling that the smaller Southern church might be "swallowed up" and dominated by the larger church.
